VERTEX | Contested Logistics

Hosted by Army Futures Command (AFC), this event brings together commercial innovators and US Army experts for a technical exchange on new and novel solutions.

VERTEX | Contested Logistics will capture market intelligence that can be used to inform everything from Army concepts to requirements. We want to facilitate a meaningful exchange of technical information among peers across the logistics sector and allow the whole ecosystem to benefit from it.

Who will be there?

VERTEX attendees include Army leaders, subject matter experts, and others from across Army Futures Command as well as Army Program Executive Offices (PEOs) with a vested interest in logistics solutions. Also in attendance will be commercial technologists, founders, and market experts who can contribute to a meaningful dialogue during VERTEX panels and use case breakout sessions.

The idea is to facilitate a meaningful exchange of technical information among peers across the logistics sector.

What's on the Agenda?

The morning agenda includes keynotes and panel discussions on logistics topics from leading private-sector innovators. In the afternoons, participants will break into small groups to talk about how these technologies can help the Army address its most critical logistics use cases.

Here is what you can look forward to at VERTEX | Contested Logistics

Gain diverse technical insights from entrepreneurs, industry leaders, and investors.

Discover current opportunities and trends in supply-chain solutions for logistics and sustainment operations.

Uncover new applications for your technology and learn about critical Army use cases.

Break into the government marketplace and connect with Army leaders with a vested interest in funding logistics solutions.

Get a firsthand look at the Army's funding opportunities from the four-star command that's responsible for Army transformation.

Network with technologists, founders, and creators working on the leading edge of logistics technology.

Testimonials

The market intelligence discussions at VERTEX | Contested Logistics are valuable for the entire ecosystem, not just for the US Army. Here's what past attendees have said about attending the event:

- “The event had a unique balance of ideation, learning, network building all anchored on an obvious need of the Army to understand its workforce (and who's within it) to actually put people first.”

-VERTEX | Human Performance Attendee

- “It was useful to hear about the Army's technical priorities. I learned many useful technical details from other private industry representatives and some of our own robotic technologies will be improved as a result.”

-VERTEX | Robotics Attendee

- “It wasn't just the big companies in the defense industry, there was representation from a lot of start-ups and small businesses.”

-VERTEX | Robotics Attendee

Attendees get to explore promising concepts, tackle real-world use cases, and uncover current opportunities and trends – all in one place.

How to Attend

Apply at vertex.aal.army to request attendance for VERTEX | Contested Logistics.

Space is limited to 150 attendees. We will review your application to ensure alignment with Army use cases before extending an invitation.

We'll let you know no later than January 26 if you are selected to participate. **Please do not book your travel arrangements until you have received an invitation to attend.**

The registration deadline is January 23, 2024.
